## Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopoeia as useless and an adaptation of the method of wild animals in curing themselves.

It was Dr. R. V. Pierce, chief doctor of the Sargical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as Golden seal and Green grape root, mandarin and queen's root, black cherry bark. These are the chief ingredients in Dr. Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

J. DONALD MATTHEWSON of Catlettsburg, N. Y., says: "I suffered for over five years with a most distressing condition of the stomach, associated with a nervous condition of the mind, and nervous heart. I had tried enough medicine, bismuth, opium, rhubarb, etc., to make a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. To the 'Discovery' and also the 'Pleasant Pellets' and can truthfully say I am feeling better than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

J. D. MATTHEWSON, M.D.
